TUS

Level 1 - Standard

How Azure Backup Actually works

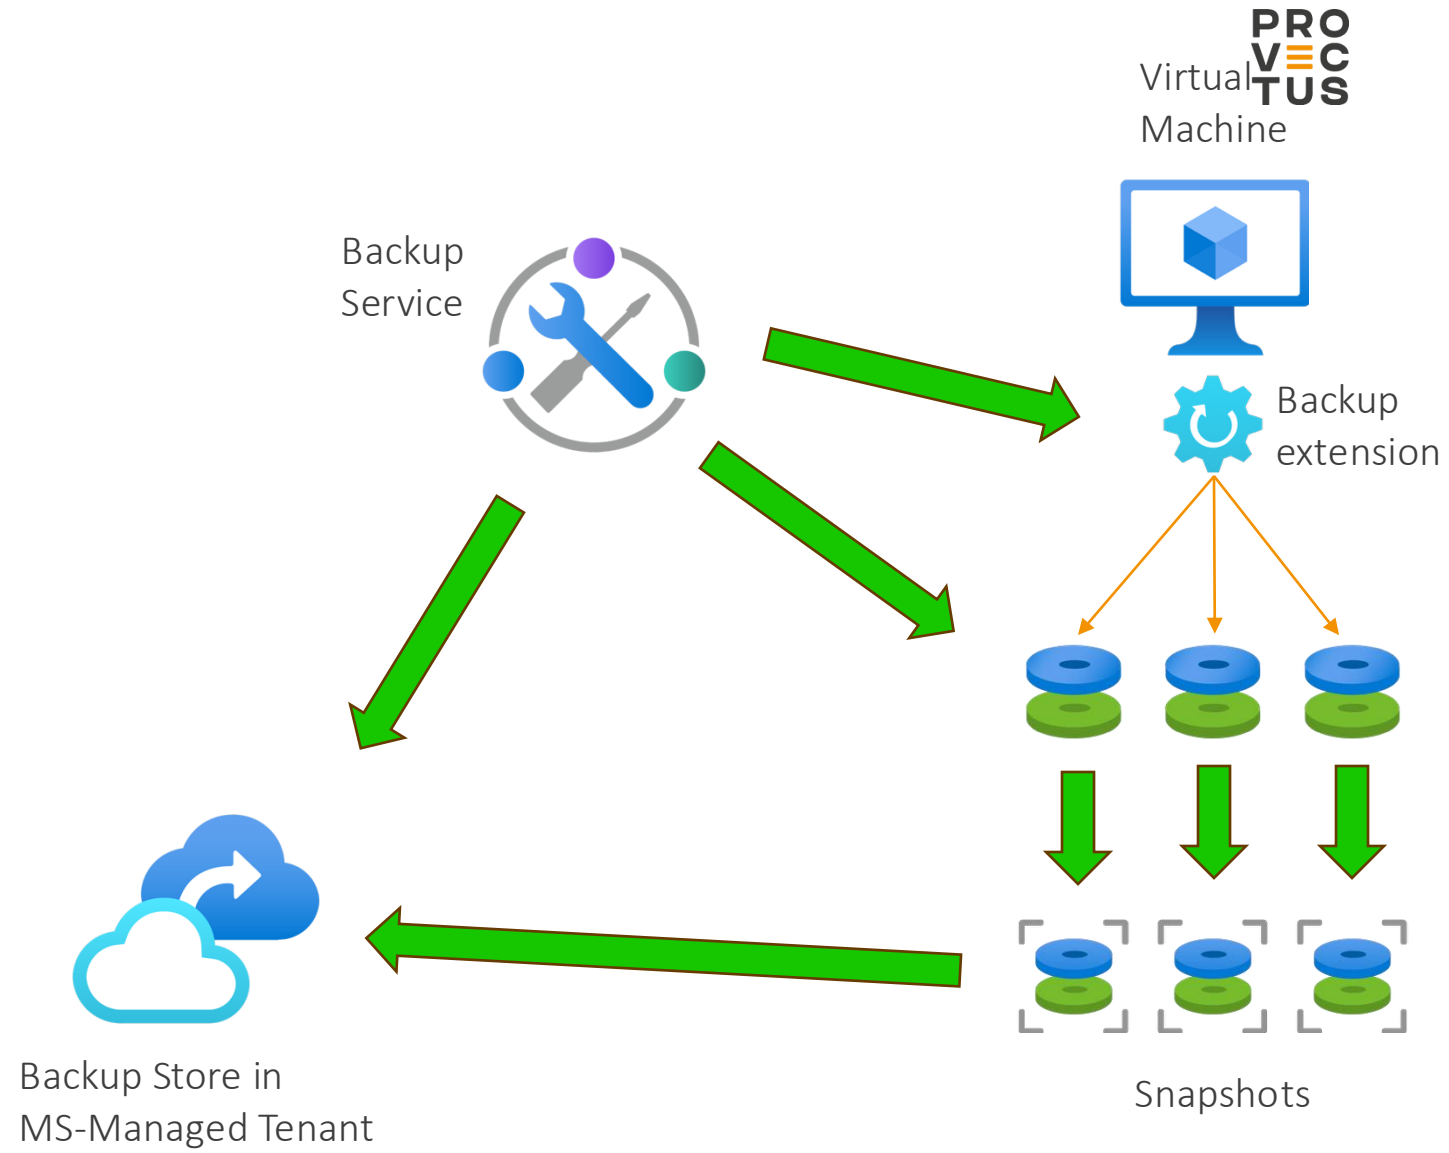

- Scheduler and Orchestrator
- Start backup
- (VSS) Snapshot
- Copy to recovery service vault

Demo

What we get by default

- Encrypted at rest and in transit
- RBAC
- Data Isolation
- No internet required
- (Enhanced) Soft Delete
- Monitoring alerts

Beware the BOFH!

Demo

Level 2 - Advanced

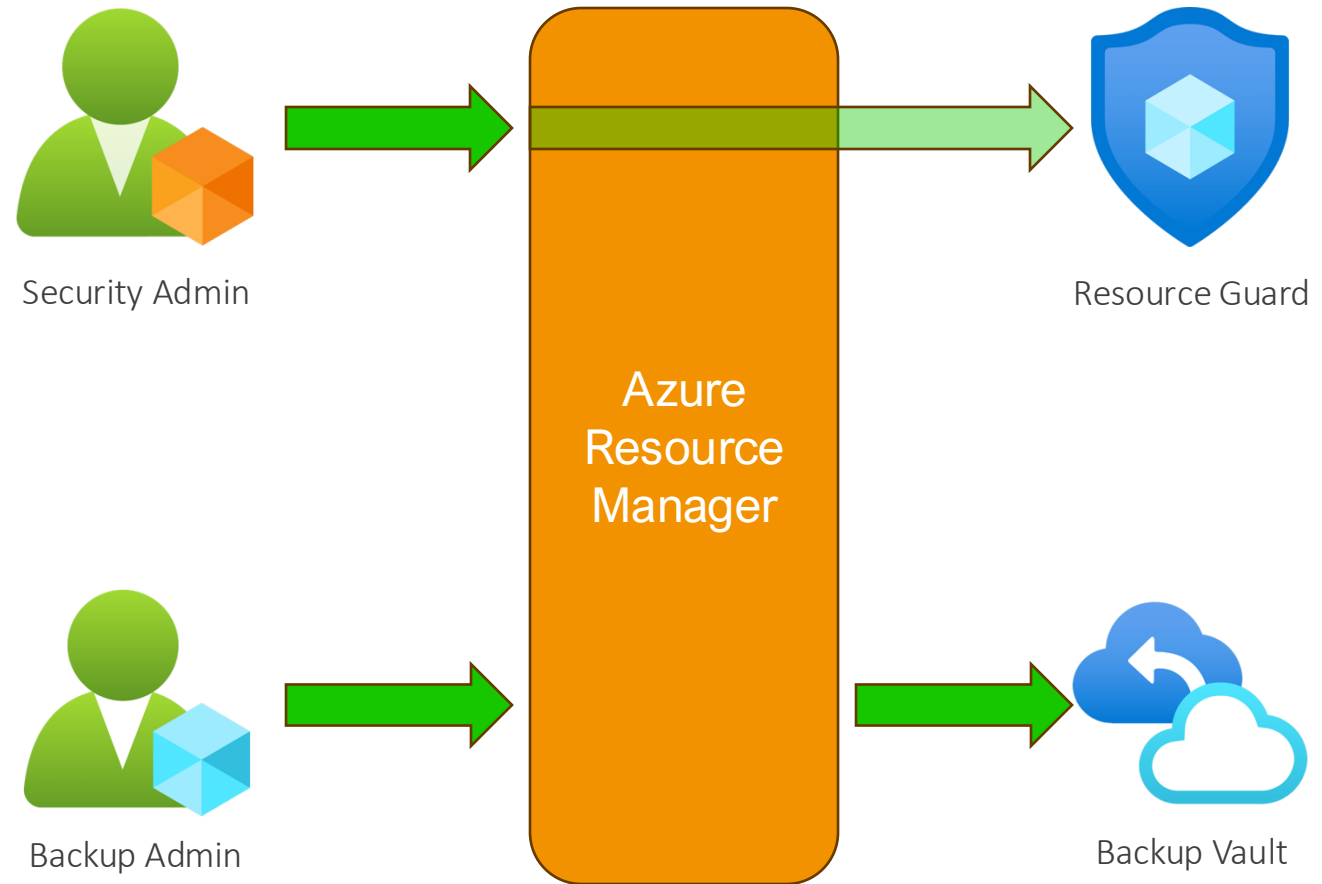

Demo

Level 3 – Endboss

Endboss

- Multi User Authorization
- Approval workflow

Demo

- Secure by default
- Additional security layers
- MUA is the Endboss
